

Editor Biographies

Mehmet Akçakaya

Dr. Akçakaya received the B. Eng. degree from McGill University, Montreal, QC, Canada, in 2005, and the S.M. and Ph.D. degrees from Harvard University, Cambridge, MA, USA, in 2010. From 2010 to 2015, he was with the Harvard Medical School. He is currently an Associate Professor at the University of Minnesota, MN, USA. His works on accelerated MRI has received a number of international recognitions. His research interests include image reconstruction, machine learning, MRI physics, inverse problems, and image processing.

Mariya Doneva

Dr. Doneva received her B.Sc. and M.Sc. degrees in physics from the University of Oldenburg in 2006 and 2007, respectively, and her Ph.D. degree in physics from the University of Lübeck in 2010. She joined Philips Research in 2010 and was a research associate in the Electrical Engineering and Computer Sciences Department at the University of California (UC), Berkeley, during 2015 and 2016. She is currently a senior scientist and a team leader at Philips Research, Hamburg, Germany. Her research interests include methods for efficient data acquisition, image reconstruction, and quantitative (multi)-parameter mapping in the context of MR imaging.

Claudia Prieto

Dr. Prieto received her B.Sc. and M.Sc. degrees in electrical engineering from the Pontificia Universidad Católica de Chile in 2005 and the PhD degree from the same institution in 2007. She was a postdoctoral fellow with the Imaging Sciences Division, King's College London, from 2008 to 2011. She is currently Full Professor at the School of Biomedical Engineering and Imaging Sciences, King's College London, London, UK. Her research interests include methods for efficient volumetric and free-breathing data acquisition, undersampled and motion-corrected image reconstruction, and quantitative multiparametric mapping in the context of cardiovascular magnetic resonance imaging.
